

Crowd in Silence

Verse 1

They fought for our tomorrow
We thank them for what they have done
Now it's us that must share their story
Remaining forever in our hearts

Bridge

All are missed,
That we've lost
That we all have lost
All are heroes for our country
But such a cost

Chorus

We crowd in silence to honour our fallen souls
Remember our lost children
Sharing their story, together, our hearts beat as one,
Remember our lost heroes

Verse 2

They fought for the things we treasure
Children of rich and poor
Taken yet not forgotten
In our hearts they share a home

Bridge

All are missed,
That we've lost
That we all have lost
All are heroes for our country
But such a cost

Chorus

We crowd in silence to honour our fallen souls
Remember our lost children
Sharing their story, together, our hearts beat as one,
Remember our lost heroes

Middle Section

As we remember this day
We remember our youth taken away
The rivers of mothers' tears
Represented by the poppy fields
From respect we let our heads fall
As we embrace the trumpet call
For those we haven't met
Lest we forget

Coda

And today, we join in silence
And today, we shout in silence
And today, we crowd in silence
